Every year increases the popuarity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the Popling, hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hain-Dressing ever used, as it requires fewer applications, and gives the hair a splendid, clossy appearance. A. A. market abounds. By their occasional use, the
blood is purified, the corruptions of the system
expelled, obstructions removed, and the whole
machinery of life restored to its healthy activity. Internal organs which become clogged
and sluggish are cleansed by Ayer's Pills,
and stimulated into action. Thus incipient disease is changed into health, the value of which
change, when reckoned on the vast multitudes
who enjoy it, can hardly be computed. Their
sugar-coating makes them pleasant to take,
and preserves their virtues unimpaired for any
length of time, so that they are ever fresh, and
perfectly reliable. Although searching, they
are mild, and operate without disturbance to
the constitution, or diet, or occupation.

Full directions are given on the wrapper to

and for the following complaints, which these
Pills rapidly cure:—

For Byspepsia or Indigestion, Listlessness, Lunguor and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone

For Bysentery or Diarrhea, but one mild dose is generally required.

For Rheumatism, Fout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
